Elia Darwish

Frontend Developer

darwish.elia@gmail.com
+49 XXX XXXX XXXX
Wuppertal, Germany

Profile.

I'm a web developer with a big passion for Frontend. I enjoy creating and refining accessible user interfaces and UI elements.

Likewise, I love playing around with animation and micro-interactions. I'm eager to improve my UI/UX skills and can't wait to dive deeper into WebGL and 3D on the web!

Sharing and learning from others are very important aspects for me, and I love the rush of learning new things (work related or not) **let's have a chat**

Languages

Arabic:
native

English:
proficient

German:
proficient

Personality

Favorite Animals:
Dogs 🐶
Chicks 🐤

Hobby:
Painting 🖌️
(traditional and digital)

JavaScript or Typescript?
TypeScript 🤘

UI Framework:
React (next.js)
(with a crush on Svelte)

Currently hyped about:
Remix, Stitches, Radix-ui, Stately
Prisma, GitHub Copilot

Is HTML a Programming language?
Not that again 😭

Interests

Dog training — Photography — Traditional and digital painting — Handicraft

Work Experience.

Frontend Developer
Sep 2022 - Now

IMG.LY - Full Time

Work on our newest flagship CreativeEditor SDK, a design editor to build cross-platform creative experiences.

- work in a cross-functional team from various fields
- Ensure a user interface focused on usability, accessibility, and customizability.
- make architecture decisions and plan feature development tasks.
- Discuss and implement APIs and interfaces, and create architectures to integrate our engineering smoothly on the web.

Frontend Developer
Jun 2019 - Aug 2022

shetani - Full Time

ideate and implement feature rich and user centered websites and web applications

- work in a cross-functional team from various fields
- make architecture decisions and plan feature development tasks
- insure consistency, usability and accessibility when building user interfaces

Tutor
Nov 2018 - Apr 2019

Digital Career Institute - Part Time

ensure a joyful and pleasant experience while guiding the students through the curriculum

- improve on teaching methods and course materials
- provide support and help students overcome any obstacles

Tutor
May 2010 - Nov 2014

Self Employed - Part Time

teaching university students the basics of PHP and JavaScript programming

Education.

Web development
Mar 2018 - May 2019

Digital Career Institute
Full-Stack web development

IT
Sep 2012 - Sep 2014

Syrian Virtual University
Bachelor in Information Technology

Computer Science
Sep 2010 - Jun 2013

Technical Institute For Computer Engineering
Diploma in Computer Science

Other.

Internships

Apr 2019 - Jun 2019

shetani
development of websites and web applications

Volunteer

Feb 2019 - Mar 2020

AWO
language and culture mediator

May 2012 - Mar 2020

Various
dog rehabilitation

Skills And Goals.

HTML:
build accessible and semantically correct user interfaces and UI elements

CSS:
implementing design systems and define semantic design tokens like type and color scales

JavaScript:
write clean, easy to understand, composable, and testable code

TypeScript:
ensure maximum type safety in the codebase by implementing type guards, assertions, utilities etc...

React:
design and build composable, developer friendly and user centered UI components

Next.js:
architecture and implementation of websites and web applications based on design handovers

Design systems:
work together with designers to plan and improve design systems that are scalable and consistent

UI / UX:
stay up to date on the latest design patterns and trends and constantly work on improving UI/UX skills

Design Tools:
familiarity with Figma, Framer, Adobe XD and other Adobe Creative Suite programs

Node.js:
build performant and data rich backend systems and APIs

GraphQl / Rest:
disgn and build scalable, performat and secure web APIs

Database design:
design and define the databases structure and data relations

Teamwork:
work effectively with teams from various fields, share my knowledge and learn from my comrades

Self Improvement:
always stay up to date on the latest technologies and best practices

Community oriented:
paricipate and be a part of the web development community, share and expand my knowledge

Get In Touch.

Whether you're interested in working together, you want me to be a part of your team, you want to exchange, or you just want have a chat, you're always welcome to drop a line and say hello!

I'm constantly working on expanding my network and meeting new people. I love talking about the past and future of web development and explore new ideas.

Looking forward to hearing from you!
